PROGETTO ASSOCIATO

The diagram is a detailed architectural site plan for a development. It features several building footprints, including a large central structure with a distinctive circular feature on its roof, and a long, rectangular building to its right. Surrounding these buildings are various parking areas, some labeled 'bus' and 'taxi'. The plan shows a network of roads: VIA ARDUINO runs vertically on the left, VIA BOTTENIGO runs horizontally at the bottom, and VIA GLORIA runs vertically on the right. Pedestrian paths are indicated by dashed lines and arrows, showing connections between buildings, parking areas, and the roads. A legend in the bottom right corner defines the symbols used for mobility: a blue arrow for 'MOBILITA' FORNITORI' (supplier mobility) and a pink arrow for 'MOBILITA' VISITATORI' (visitor mobility). The plan also includes labels for 'CABINA 1' and 'CABINA 2' near the top left, and 'area scatto merci' (goods acceleration area) near the central building.
